2009
CDs

CDs

The Science of Forming *By Stuart Keeler, ScD, President, Keeler Technologies, LLC*

Articles help stamping-plant engineers and managers overcome problems related to springback, tool design and other formability issues. Also included are articles on advanced high-strength steels.

CDs

Metal Stamping by Design *By Larry Crainich*

These articles focus on tooling issues that metal stampers, tool-maintenance personnel, and tool designers and builders wrestle with every day.

CDs

Metalforming Electronics Sensors & Controls *By George Keremedjiev*

Columns as well as papers and exclusive new presentations cover all aspects of die protection and part-quality inspection, starting and maintaining sensor programs, the role of controls in in-die sensing, and the benefits of a sound sensor program.

CDs

The Science of Forming, Vol. 2 *By Stuart Keeler, ScD, President, Keeler Technologies, LLC*

This CD-ROM includes dozens of MetalForming magazine columns on springback, tool design and material formability. Multimedia presentations bring forming issues to life; and presentations cover forming of higher-strength steels, statistical deformation control and virtual sheetmetal forming.

CDs

Tooling by Design *By Tim Stephens, President, Competitive Action Technologies*

Articles explore foolproofing of dies, prevailing theories, incorrect practices, die-set essentials and the Laws of Die Mechanics.

**Purchase any CD for only \$59.95 each.
Or, save nearly 20 percent by purchasing any six for only \$300!**

**FREE shipping and handling to the United States, Canada and Mexico
if you use this form, or e-mail your information to mobrien@pma.org
and we will call you for your credit card information.**
